Prairie Dog Management Permit

Date of Application: 6/3/19

Applicant (First): HSW Land LLC Last:

Property Address of where prairie dogs are located (or directions from nearest cross streets): \approx 1.5 acres at S.E. corner of 3rd Ave. and Hwy 119 County: Boulder Parcel No.: 13151200051

Applicant Address: 1232 Boston Ave Phone: [REDACTED]
 City: Longmont State: CO Zip: 80501
 Email: [REDACTED]

Property Owner (First): HSW Land LLC Last:
 Address: 1232 Boston Ave City: Longmont State: CO Zip: 80501
 Phone: [REDACTED] Email: [REDACTED]

Minor Prairie Dog Permits are applicable if the property is less than 1 acre and/or if there are less than 25 prairie dogs. If applying for a Major Prairie Dog permit, a \$500 application fee will be charged. At the issuance of the permit, an applicant for a Major Prairie Dog permit may also be issued a \$1,200 Habitat Restoration Fee for each acre of active prairie dog habitat lost. There are also fees and/or deposits associated with signs used for relocation and extermination.

What is the size of the property? \approx 1.5 acres Is the property greater than 1 acre? Yes No
 If property is less than 1 acre, please skip the following section.

The City of Longmont requires that properties greater than 1 acre be reviewed by a wildlife biologist and provide a copy of the findings of the survey. Please see the attached checklist for property survey requirements.

Has the property been reviewed by a wildlife biologist? Yes No

What was the identified Active Prairie Dog Habitat (APDH) size? \approx 1/3 acre
 What was the official count of prairie dogs? 3

I hereby certify that the information submitted is true and correct. In submitting the signed application, I acknowledge and agree that the application is subject to all the terms and conditions for Prairie Dog Control as defined in Ordinance 0-2019-01. I understand that any false statements or omissions may result in denial or revocation of this permit. I also understand that in accordance with Ordinance 0-2019-01, the City has permission to enter property to confirm the site, prairie dog active habitat size, and count.

Subject: Prairie Dog Occupancy and Habitat Survey for approximately 1.53 Acres within
Section 12, Township 2 North, Range 69 West, Longmont, Colorado 80504.
Western Environment and Ecology, Inc., Project Number: 517-009-02

Dear Mr. Welch,

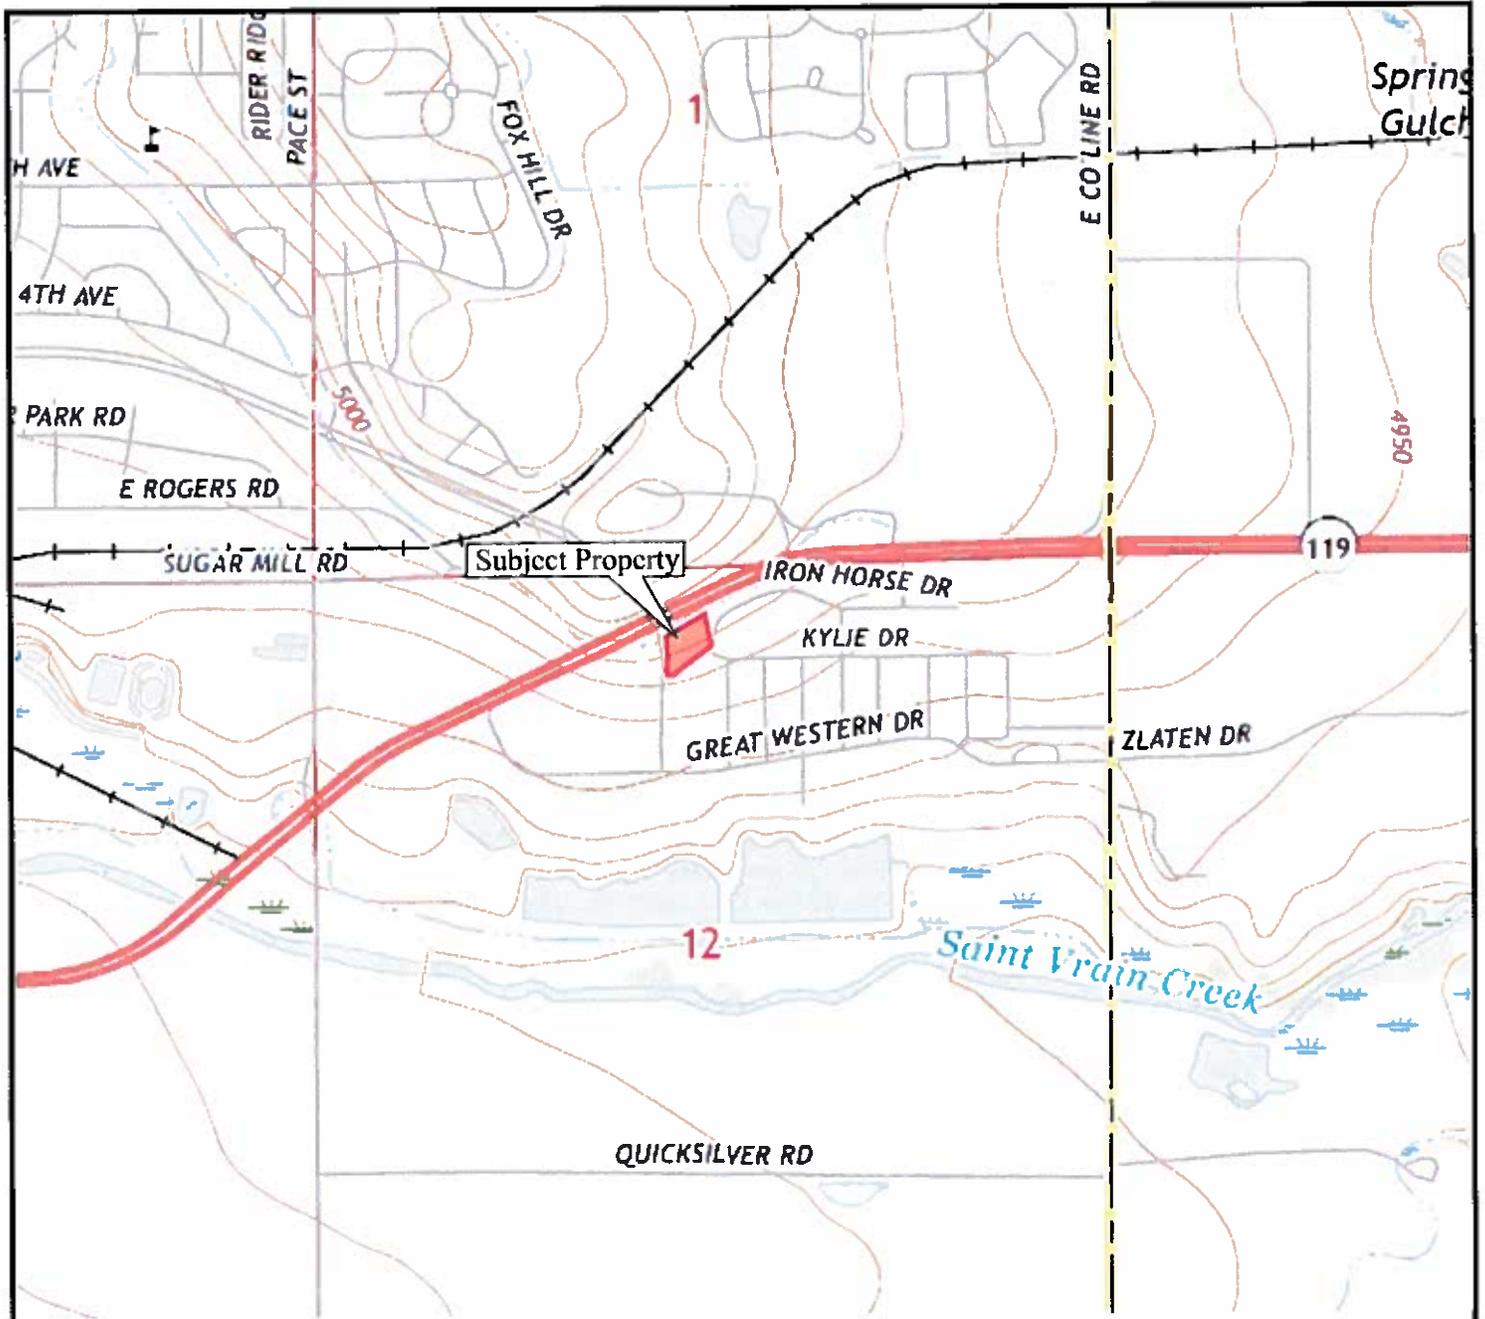

At your request, Western Environment and Ecology, Inc (Western Environment) performed an inspection for prairie dogs (*Cynomys ludovicianus*) occupying the proposed development (Figure 1). This survey was performed at the recommendation of the City and County of Longmont in compliance with their Ordinance O-2019-01 dated January 1st, 2019, for prairie dog management.

Western Environment personnel observed the property on two consecutive inspections on May 30th and 31st, 2019. Observations occurred from 0900 hours to 0930 hours. The weather on May 30th and 31st was slightly cloudy and sunny with temperatures rising from the mid 50's in the mornings. Wind speeds were approximately at 3 mph, with occasional gusts over 10 mph. A Bausch and Lomb 60mm spotting scope and a Bushnell 16 X 32 binocular were used. Observations, such as wildlife identified and general ecological conditions were documented in a field notebook. The vacant site was graded and contained vegetation coverage including weeds such as curly dock (*Rumex crispus*), prickly lettuce (*Lactuca serriola*) and Russian thistle (*Salsola kali*). During the site visits, several active prairie dogs and burrows were observed within the center of the site (Figure 2). Based on the observations of these surveys, a total of **3 prairie dogs** were present on the subject property time of the inspections.

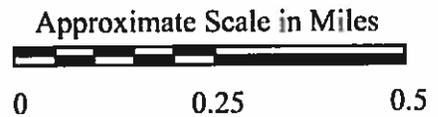

Additionally, no burrowing owls (*Athene cunicularia*) or ground nesting birds or nests were observed at the time of the inspections. Also, no wetlands or Waters of the U.S. subject to regulation under Section 404 of the Clean Water Act occur on the project. Please feel free to contact us with any questions you may have. Thank you for the opportunity to provide these services.

Sincerely,

Western Environment and Ecology, Inc.
Austin Curry

Prairie Dog Memorandum

Date: June 18, 2019
To: Don Burchett, City of Longmont
From: Pam Wegener, Pinyon Environmental, Inc.
Subject: **Prairie Dog Assessment, HSW Land LLC Property, Longmont, Colorado**

On May 30 and May 31, 2019, Western Environment and Ecology, Inc. (Western Environment) conducted visual counts of prairie dogs (*Cynomys ludovicianus*) on the HSW Land LLC Property (property). The property is approximately 1.5 acres and located on the south side of Highway 119, east of East 3rd Avenue in Longmont, Colorado. On May 31, 2019, Western Environment submitted a letter to HSW Land LLC documenting that a total of 3 prairie dogs were present at the property during the time of the inspections (Curry, 2019).

Per the City of Longmont Ordinance O-2019-01, the City of Longmont has contracted Pinyon Environmental, Inc. (Pinyon) to verify the number of prairie dogs counted by Western Environment. On June 13 and June 14, 2019, Pinyon observed the property twice each day for 1.5 hours each (for a total of 3 hours each day) and counted the number of prairie dogs using binoculars and spotting scope. The results of Pinyon's verifications are listed in Table I.

Table I. Results of Prairie Dog Counts at the HSW Land Property

Date of Survey	Time of Survey	Approximate Temperature (degrees Fahrenheit)	Approximate Cloud Cover (percent)	Approximate Wind Speed (miles per hour)	Number of Prairie Dogs Noted
June 13	0920 – 1050	66 – 75	10 – 15	0 – 5	3
	1300 – 1430	82 – 86	10 – 15	0 – 5	3
June 14	1305 – 1435	81 – 82	75 – 80	0 – 5	3
	1610 – 1740	72 – 75	80 – 85	0 – 5	3

During each inspection, Pinyon noted 3 prairie dogs on the property. Given the time of year, it is possible that some prairie dog pups are still underground. The number of prairie dogs counted by Pinyon is consistent with the number of prairie dogs counted by Western Environment. A photographic log of the site is attached.
