Prairie Dog Management – Application

Once the Prairie Dog Management Application is submitted, the City will determine if a Minor or Major Prairie Dog Permit is required.

Major Prairie Dog Permits are required for attempting to relocate or exterminate prairie dogs if the property has an Active Prairie Dog Habitat (APDH) 1.5 acres or greater or if it does not have existing urban development. A wildlife biologist will need to confirm the Active Prairie Dog Habitat (APDH) size, as well as provide an estimate of the number of prairie dogs and the methodology for estimation. There is a \$500 application fee will for a Major Permit. At the issuance of the permit, an applicant for a Major Prairie Dog permit may also be issued a \$1,200 Habitat Restoration Fee for each acre of active prairie dog habitat lost. There are also fees associated with signs used for relocation and extermination (\$20 per sign).
